---

I would cite this was our 3rd attempt to negotiate a removal for tank impoundments. 1st time was when EPA was negotiating the RI/FS 5 years ago and the PRP withdrew their offer when EPA would not allow them to do the RI/FS under the VCP. 2nd time was in late 2007-early 2008 when EPA approached them about AOC for removal to speed up the cleanup of the site (negotiated for a year and couldn't agree of acceptable language for the AOC for removal. 3rd time is the late 2009 asking them to do removal and sending them an AOC and then keep getting promises to submit marked up AOC but no marked up AOC is received.

Barb<sup>2</sup>,

Do we need any trigger for doing a fund lead tank/cap repair removal, other than our decision that the removal AOC markup is not acceptable?

Thanks,

Gary Miller, P.E.
